The University High School

Year 11 Parent Contributions 2026

5 November 2025

Dear Parents and Carers,

University High School is looking forward to another great year of teaching and learning and would like to advise you of the school's voluntary financial contributions for 2026.

Schools provide students with free instruction to fulfil the standard Victorian curriculum, and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students.

Within University High this support has allowed us to enhance a range of programs and areas, including a vibrant sporting and co-curricular program, in addition to items and equipment for Art/Tech, Science, PE and other learning areas. This includes whole year-level incursions and excursions; online textbooks for Mathematics, Languages and other learning areas; trial exams and external markers to support our VCE students; guest speakers, professional writing workshops and publication of student work; additional student wellbeing personnel and programs; a wide range of student clubs; additional resources to support students' literacy and numeracy learning; and the continuous updating of digital technology and equipment in our Art/Technology and Music classes. The quality of our students' learning and experiences on display in our exhibitions and performances, our newsletter and yearbook, and our daily activities, are the outcome of this generous support from our families.

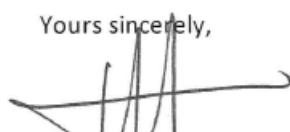

Your donations to our Building and Library Funds have enabled upgrades to facilities including student bathrooms; air conditioning to classrooms in the 300 level of the North Building; the installation of further CCTV; the construction of a dedicated Careers office space; and have allowed us to maintain an extensive, contemporary physical and digital library collection, including access to high-quality research databases usually beyond the scope of a school library.

The University High School Council want to thank you for all your support. So many parents in 2025 have made contributions according to their family's means, whether financial or through volunteering time and skills, or both. This has made a huge difference to our school and the programs we can offer.

For further information on the Department's Parent Payments Policy please see a one-page overview attached. This year, the School Saving Bonus also provides families with additional support in meeting the costs of the start of school year. You will find information about using these funds in this pack.

Thank you again for your ongoing support of our school.

Yours sincerely,

Nick Scott
Principal
